

DE LONGHI BEAN TO CUP FULLY AUTOMATIC COFFEE MAKER ETAM 29.66

Long Coffee

The "Long coffee" is a function that reproduces the taste and size of the American Filter Coffee through slow and low-pressure brewing, activated with simple touch of a button. The result is a coffee with a delicate flavour that can be enjoyed at any time of the day.

LatteCrema System

Enjoy a perfect mix of pleasure with our [LatteCrema System](#). A creamy cappuccino, with dense milk foam, always at the perfect temperature ... until the last drop

Doppio +

Thanks to a new innovative brewing process, you can get a double espresso with extra aroma and a boost of extra energy. For all those moments when you need an extra lift.

Milk Menu

Apart from the direct milk button for Cappuccino, discover the world of milk entering in the Milk Menu, where you can choose among Caffelatte, Latte Macchiato, Flat White and Milk, which gives you the possibility to personalize your preferred milk beverage.

KEY FEATURES

- Removable milk carafe with integrated dial to select the frothed milk setting to be served directly to your cup.
