

Technical Specification & Requirements

15mm supply required (minimum pressure 3 bar).
32mm plumbed drain directly below counter.

Height: 790mm

Width: 610mm with fridge

Depth: 575mm

Weight: 96kg (when full)

Power: 30 amp single phase + 13 amp socket on the same phase

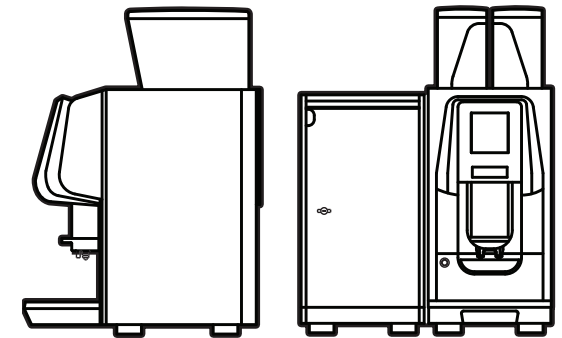

Water: Plumbed in

Waste: Plumbed in

*Please make sure you have an extra 100mm height clearance to fill the bean hoppers and can leave space and access on all sides of the machine for service and repair.

Check our Installation Data Sheets for all the technical details before ordering your machine.

In some areas of the UK, hard water can damage your machine. To limit this, we provide a free Brita Filter unit with your machine under the service rental contract. Replacement cartridges for the Brita Filter unit can be purchased from Matthew Algje.

ONE

Egro

Perfect coffee every time, outstanding performance, amazingly compact, excellent design and advanced ergonomics: it's the new Egro ONE, the fully-automatic coffee machine that's become the new benchmark in its class.

- The ideal self-serve machine
- Compact and powerful - up to 100 cappuccinos per hour
- The most durable brewing technology available in its class
- Pictorial on screen display for ultimate ease of use

Features & Benefits

- **Fastest speed of delivery rating in its class**
- **Up to 100 cappuccinos or 100 lattes per hour**
- **Lockable integrated milk fridge with large 6.0L capacity**
- **Automatic rinse and step by step cleaning procedures insure consistent quality and minimal staff involvement**
- **Up to 48 selectable products provides for all styles and tastes**
- **Programmable load & show touchscreen graphic display can feature bespoke promotions and even play video**
- **Automatic milk level monitor lets you know when a refill is required**

The **ONE** has an advanced user interface with a **5.7" touchscreen graphic display in full colour.**

The easy-to-use interface guides the customer through the choice of products. The multi-coloured page system enables the customer to choose from 48 products, each one with its own attractive user-friendly icon.

ONE also offers the option of **uploading and customising screensavers**, and **running promotions** to boost business.

The technical menu, with restricted access, offers the machine administrator a range of additional functions such as checking the machine consumption and monitoring cleaning routines.

Also available as an operator service option – Egro Barista One – complete with steam wand and hot water tap.
