# Bistro!

PERFECT FOR  **500** COFFEES PER DAY.

The Bistro! is designed to cope with high-volume demand in the shortest possible time. Offering 16 different coffee specialities at the touch of button, the Bistro! sets a new standard in high volume coffee specialities delivery.

With advanced features including; WMF Plug and Clean system, stainless steel brewer and professional hardened steel grinding disks, the Bistro! will always meet your demands.

## FEATURES SUMMARY

- **HACCP Certified Plug & Clean:** effortless cleaning of all milk-leading parts
- High Performance & Slim construction
- 16 different coffee specialities
- Double cup function for simultaneous serving
- Barista button
- Hardened stainless steel components
- LED illumination

Automated Cleaning cycles and **HACCP** compliant WMF Plug & Clean Milk System allow the user to clean with the press of a button, saving time and operation costs.

Basic maintenance can be carried by the end user due to clever engineering and design which makes service calls a rare occurrence.

A variable number of drink buttons a simple labelling concept allow the user to label and program up to twelve easily accessible coffee drinks.

The WMF Bistro! is Active Milk Compatible. This allows the preparation of Hot & Cold Milk and milk foam beverages.

The WMF Bistro! is more environmentally friendly with reduced energy consumption, fewer chemicals and almost entirely recyclable.

Its slim construction (324 mm wide) and modular accessories make the WMF Bistro! adaptable to any environment or customer need.

Stylish integrated LEDs light up the preparation area and create subtle ambience for the user. The Bistro! features 16 different programmable colours and programmable colour cycles.

WMF Australia have an Australia wide sales & service network with trained service engineers.

With the integration of a mobile trolley the WMF Bistro becomes a mobile unit without any loss of quality and coffee output. Plug & Clean compatible.

Example of the 9.5L under-cooler unit. WMF Fridges are completely modular and can be integrated with different units.
